“ *My friends and I happened to meet Tony while he was out for a stroll and a run. We were able to give him exactly what he wanted and needed, and finalized the choice he made.*

We hoist beverages from time to time as we remember what was, and what will never be.

Bring a case of beer for the family.

“ *Tony my brother, I ask myself how could this be true? I can hear your squeaky laugh and see that big ol smile that you would always be wearing upon your face. You always had such a beautiful love for your boys they were your everything and I can easily say that your being a dad to them boys was exceptionally beautiful and something I will always admire and respect you for. Is so sad Tony that you got taken from us so soon. Your memory will forever live in through us until the day our name is called. Until then rest easy Tony and may GOD BLESS YOUR FAMILY always. Bye for now friend*
