“ My favorite memory of you would be when we watched the xxxtentacion documentary at your gmas house for the first time, we talked about it after and then you walked me home<3 Your favorite color was black but you liked the color blue just as much. I think about you so much, we had love for each other that will forever remain in my heart. Like they say if love could've saved you... you deserved so much better from this world Carlito you will never be forgotten. I give my condolences to your mom, your best friend, I know she misses you the most.

“ I can't stop thinking of you.
Even though we never met physically, I wish we would've went through with our plans to meet in person but covid happened and it got complicated. You impacted me so deeply.
Hope to see you when it's my time so we can finally go for that walk & finally hug each other the way we wanted to.
Love you carlito ❤️😭
You were & still are a real one!!!
Rest up ❤️
