“ I knew Cheryl from 1995 until my retirement in 2010 - both as a parent and as an employee at Edison. After that, I was able to semi-keep up with her via Facebook. She was always a tiger when it came to defending her children in school. She was always an interesting conversation at school and athletic events. I have always had a lot of respect for her and would take time to carefully listen to her when she had concerns. I know that she will be deeply missed by her family and friends!
