“ All the times we went to visit with our parents we had fun playing with all your toys and video games. When we all went to the mountains and you had to take a picture with me on the side of the road. You were my little fan. Got to see you grow up and have a son of your own. Saw you often when you worked with my dad, your uncle, who is in heaven now. Say hi to him for me. No more tears or sorrow in heaven. Miss you love you.

“ D, You are and forever will be my brother, My Ride or Die for life. You had my back and helped me through some of the hardest events in my life. We were there for each other In ways that we both needed. No matter what it was from the big and small to the good and ugly . Like you Used to tell me all the time" I love u Jess, no matter what it's gonna be me and you til the end. Up until the very last moment brother I was there. I will cherish the time we had together for real. I promise with all my heart and soul I won't let your music die, your song isn't over brother, not if I can help it. I love you so much d. Life certainly isn't the same without. I feel so lost. I miss you so much more everyday

“ You were my first love. When you were born and I held you the first time, my heart was so overjoyed with love. You will always be with me from morning to night...24/7. I always hoped your music would carry you thru life and make you happy. Your life wasn't always easy and sometimes you felt like you didn't matter. But if you could see, and I hope you can, the outpouring of love coming at you, I think it would have changed your life. I hope you now know how loved and supported you will always be. I love you, my son forever.
