“*Jewel was my best friend. I was over her house almost every single day in high school. Griz was somewhat like a father to me. I remember one time I was at my abusive boyfriend’s house and I was scared cuz we had been fighting. It was late. I called Griz and asked him to come get me. No questions asked. He came and got me and took me home to safety. Forever thankful for that moment and many others. I had nothing but love for him and he will be greatly missed. Love you Griz.*”
