“ We met Glenn once when he came to help our granddaughter Sierra move. He brought a truck and he brought a friend. He was so helpful and kind and willing to help. Rest in peace Glenn and thank you for bringing light into this world during your short time here on Earth.

“ May his soul find peace and rest beyond this world. May there be healing where there was pain, and light where there was struggle.

“ being Glenn's friend in high school, barbecuing was not one of his favorite things at least not over smoking, and being his family, it's been hard but I know he's doing strong wherever he is!

“ Glenn was a carrying and loving young man who was always willing and able to assist. I knew him and his family as neighbors and friends. My heart will always remember his smile and carrying nature. How much he was loved and cared for will never be forgotten. No words can correct the nature of life but my love for you will never change. God speed young man, your mothers arms will always be open for you.
