“ I'll always remember the day you stopped me after school and pierced my ear with an earring lol and I'm thankful we got to reunite as adults one more time. And I'm very happy that we got to talk and you didn't leave this world thinking I was mad at you. I'll never forget you and I'll always miss you and your laugh. It hurts that we never got to have that movie night with the kids but at least I got to hug you one last time. Love you Holly

“ Holly was my best friend in High school! We were connected the hip. My most fond memory with her was hanging out at her Grandma's listening to music in her room and raiding her closet to find matching outfits! She was also my son's God mother. Rest easy my friend!

I agree my cousin Rachel truly loved holly and especially Amy. Rachel was with holly until the end to bring her comfort and peace. My heart breaks for Amy. But I'm sure everyone can hopefully come together and surround that baby girl with love and beautiful memories of her mommy. Her guardian Angel 🙏😭
