“ I had only worked with Joe for a short time but have to say he was the nicest man!!!!
He would always offer his ice cream bars on the hot summer days.
His chats and smiling face will be missed.

“ I saw Joe nearly every day he was in Massari Arena. We would joke about me staying late and he was coming in early. He always asked about my family and we always had some pleasant chat about food, sports, places we liked to go.

I remember the last opportunity I had to see him just before I left campus in early December, and talking with him about family Christmas traditions.

He made everyone always feel at home and made people feel like they knew for many years. Always with a nice thing to say and a smile or a joke. I will miss him and our nightly chats.

I want to send out prayers and compassion to Joe's family on the loss of such a special person. You probably never heard of me or many of us, but got to hear about you from a person that had so many loving things to say about all of you. I offer you my sincere condolences on your loss. Joe was really one of a kind (or maybe 4 of a kind is a better analogy!)

“ Over the last several years of Joe working at Massari I had gotten to know him and always looked forward to our conversation as he started his shift and I was ending my day. We had the sports thing in common and hardly a working day passed that we didn't get into the latest football outcome or whatever else was going on in the sports world. I will miss him greatly and want his family members to know how much he was liked and appreciated at CSUP, not just by me, but by everyone.

“ I am so saddened by the loss of Joe. I worked with him at CSU Pueblo and talked to him most days as he worked in my building. He was ALWAYS a bright spot in my day with a kind word, a great attitude and often something to share. I will miss him greatly. He was such a wonderful person. I'm so blessed to have known him.

Prayers go out to his family, friends and all who loved him. Every day I have been at work since the holidays I miss him and his smiling face. He was loved by all in the School of Health Sciences and Human Movement
