“ I’ve known Larry since I was in junior high school through my brother who was a classmate of his at East high school. Got to know him very well over the years. He was always a fun guy. We went on a Caribbean cruise in 1992 and he was my cabin mate. One night we had a formal dinner and one of the people on the cruise with us came to our table and asked if Larry was my dad! We had a running joke about that for over 30 years as I would call him dad every time I would see him. we went to go see the Tejano music awards in San Antonio many years ago and had an equally great time. He went through so many physical hardships during his life, but he was a tough guy. Your suffering is over My friend. play your guitar with the angels. I will miss you. Lee Medina

“ My cousin Larry had a presence about him that made a person feel loved. My family ( jirons ) had attended a wedding in Colo springs . The following day we were ready to head back to Denver , my cousin Larry volunteered to ride me back on his motor cycle .I was still in high school and I felt so special ,I had never been on the back of a motorcycle before . It was the best ride i ever had to this day . I've never forgotten that day.  
We send our condolences to all his family members . Our prayers are with you in this time of loss . Hold onto the love he shared with each one of you and remember it in times of sadness . We will miss him also he meant a lot to us . May God bless you and comfort you.

“ Larry was such a great friend! I used to cut Larry's hair. In 1990 or 1881 Larry had me cut his hair and give him a perm! A wonderful person! He will be missed and lovingly remembered! RIP my friend.
