“ *To the Sanchez Family:
I received word of your father's passing and am trying to figure out words to express everything he did for my family.
It has to be at least 30 years (if not more) that he helped with rental properties and taking care of our homes. I also watched you siblings grow up.
Your father was like a younger brother to me as we shared laughs, lunches, and tips on cars and home improvement.
So many memories and stories. May all of you carry his name and legacy.
May God bless and guide you during this difficult time.*

" N o I can not buy a ticket to heaven , but it will be OK" and a very long time to have friends like this....

The most funny moment was we were both in a cab , I had to sit on his lap because of room , He lite a cig and it somehow got his afro of hair a big afro of maybe 6 inches out and his hair started to burn, I had to rush grab his drink and poured it all on him, We laughed and I cut that curly sheep hair off him and changed him and his looks.. His friends always betted was he white or black, It did not matter because to me we were all a nation oF every color and race... Although he never new his mother nor father the lord has his son now and that is peace now... he is resting...From a soul man to a business man, Never having a opportunity in family business ...The Lord provide , we used our hands of tools worked very hard and on the way persons would burn us not pay for the work , but we found Peace in forgiving greed, and just giving to the church....The more we gave the more work came.Then your body fails and breaks down so everyone reading this get your degree make like easier for your life..also love buying tools and I saw he got them all back so . Paid off Mac Man for him.... Always giving and most of all the Power Of Praying... “ I would like to thank the Lord that He gave me such a smart and knowledgeable father in law. The Bible says walk with the wise and become wise. I know I am a better man because of the time I was able to spend with Lorenzo. I was just a young man when I met him, but still very immature, and helpless. Lorenzo helped me to believe that I could do things for myself. If it wasn't for him I would still be calling a professional for every little thing in my life. He helped me to grow into a man. I'm very grateful I had him in my life. I love you Lorenzo. May the Lord take you into His Kingdom! In Jesus Name.
