

## Paisley Maddison Pineda

December 9, 2017 - December 9, 2017

Baby Paisley was diagnosed with Trisomy 18 when she was four months old in the womb. I as her mother chose to carry her to term and love her unconditionally. I wanted her to feel all the love from her family no matter how much time we had with her. God gave us one full hour with her. Paisley was born early weighing only 4lbs. 7oz. O took care of her every second of her life. We will forever remember her. Paisley is survived by her parents; siblings, Isaac, Braylon, Kayson, Matthew, Juliana, Ashleigh, and Jayden; grandparents, David (Jane) Pineda and Chuck (Margaret) Muniz; and aunts, Melanie (Ennis), Leah, and Jessica (Chris).
