“ Mr Gallery, was a wonderful man, a great teacher, he was also our neighbor in Belmont. He lived next door to my brother on Alexander. You will be missed. Thank you for giving me the understanding of Algebra enough to pass.... I can still hear you saying. A and B could be any numbers!!!... to my question.... "But why a or b, why not a number?"

“ Mr. Gallery was a superb teacher in general and math teacher in particular. Mr. Gallery was my math teacher at East High School in the early 70's, and not only did he get me to understand trig., but he gave me the math confidence to go on to his Functions class. I really did enjoy math because of Mr. Gallery. So sorry for the family's loss!

“ Mr. Gallery will always rank as one of my all-time favorite teachers. It was obvious that he not only loved teaching but that he also loved his students. He was fun and funny and approachable and he could always make the subject matter accessible for everyone. I always looked forward to his class because he found fresh ways to present the material so that it was never dry or boring. My condolences to his family.

“ My family and I want to send our condolences to the family of Mr. Scott L. Gallery, a teacher that touched so many in a positive way. I always enjoyed being in his classroom, but I always enjoyed a good game of chess with him. I will always remember him for the advice he gave me about my career in the U.S. Air Force. I particularly liked when he had the whole chess club over his house for a Bar-B-Q and a afternoon of chess. He was not only the sponsor for the chess club, he personally provided transportation to and from tournaments around the state. I will always remember his shirts that were embroiled with his initials and sometimes with the word "Leader." "Mr. G," you family are in our prayers. God Bless You!
