Days if Wonder

Today is the 8th of November 2025 it's been a month and 3 days since you've left earth 🌍 only to be with family that reside in paradise with our heavenly Father Jesus Christ 🙏 and with Family/Mom 🙏.Dad 🙏 ,Sister 🙏 brother, Friends every day that passes it is getting easier but still devastating cannot see you North visiting is extremely devastating I miss seeing you I miss talking to you I miss being around you but you're in a better place and you're not here on this Earth weather is pain sorrows I still wish that she would have never left me but I guess I need to understand the pain in the shower that you wouldn't felt with no understanding from family and knowing what you had gone through with the housing unit and and there threats I strongly believe that that's what took you away because of the stress I was there to take care of you and give you your meds but they felt that they knew what was best all because of hatred I only wish that I could have been with you during your time of passing because that's one thing I never wanted you to do to go alone but you never were why because you had or have any father and the angels to guide you to Paradise with you so much deserve because people are here on Earth will be missed by you the joy the laughter and their spirit of your being will be totally missed I know that I do that's not a day that doesn't go by that I don't think about you but after so many years 26 years of friendship too good and bad we were always together but there will be a day that you and I will reunited
