“ So I never personally knew Mr. Gonzales, but I did work at the hospital where he was a patient. He always had family and friends coming to be with him and see him. This speaks so highly of what kind of man he was. He was deeply loved by so many. I had the pleasure of getting to know his family during this difficult time, and he has left his legacy through those he cared for. The love he had for his family has been passed on to his family, it's multigenerational. And that Mr. Gonzales is what life is all about. You did a phenomenal job. You will be greatly missed, but thank you for the greatness you put out into the world. My prayers and condolences are with your family.
